Professional Summary

Full Stack Developer with 4 internships and hands-on experience in **Python, Django, Laravel, and React.js**. Proficient in **REST API development, test automation**, and database management using **PostgreSQL and MySQL**. Experienced in **Agile/Scrum, MVC architecture**, and **SDLC**. Seeking an entry-level **Software Developer** role to build scalable, production-ready applications.

Technical Skills

Languages: Python, JavaScript (ES6+), PHP, HTML5, CSS3, SQL

Frameworks: Django, Laravel, React.js, Bootstrap, Pandas, Scikit-learn

Databases: PostgreSQL, MySQL, MongoDB

Tools: Git, GitHub, Selenium, Playwright, Postman, VS Code

Concepts: REST API, OOP, MVC Architecture, Agile/Scrum, CI/CD, Test Automation, Machine Learning

Internship Experience

Software Development Intern

Oct 2024 – Jan 2025

Poorna Technology Consulting, Coimbatore, Tamil Nadu

- Maintained and enhanced **REST APIs** for a blog application using **Django** and **Laravel**, following **MVC architecture** across 5 application modules.
- Automated testing workflows using **Selenium** and **Playwright**, reducing manual QA effort by 40% and shortening the release cycle by 1 week.
- Stack: **Python, Django, Laravel, PostgreSQL, Selenium, Playwright, Git, REST API**

Frontend Development Intern

Jul 2024 – Aug 2024

Leader's Desk, Coimbatore, Tamil Nadu

- Created 10 reusable **UI components** for an online learning platform using **HTML5, CSS3, and JavaScript**, ensuring cross-browser compatibility.
- Integrated **REST APIs** and collaborated with 3 developers to deliver feature modules 2 days ahead of schedule.
- Stack: **HTML5, CSS3, JavaScript (ES6+), Bootstrap, REST API**

Python Full Stack Intern

Jun 2024 – Jul 2024

Emglitz Technologies, Coimbatore, Tamil Nadu

- Constructed a **machine learning landslide prediction model** with 85% accuracy using geological datasets and a structured **data preprocessing pipeline**.
- Produced 5 **data visualization dashboards** using Matplotlib and Seaborn to present environmental risk findings to a team of 4 members.
- Stack: **Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn**

Full Stack Development Intern

Nov 2023 – Jan 2024

Altruistry Internship Program, Remote

- Contributed 8 **frontend UI components** to a full-stack web application, following **SDLC** practices within a 3-month Agile sprint cycle.
- Delivered **mobile-friendly, accessible layouts** for 4 web pages, reducing layout inconsistencies by 30% through component-based design.
- *Stack: **HTML5, CSS3, JavaScript, Responsive Design, Git***

Projects

Full Stack Blog Application

Oct 2024 – Jan 2025

Django, Laravel, PostgreSQL, REST API

- Launched a blog platform with 3 user roles, **JWT authentication, role-based access control**, and a content approval workflow.
- Architected a **PostgreSQL** database schema with 6 models covering posts, drafts, categories, and soft delete functionality.
- Implemented **RESTful APIs** for frontend-backend communication with an average response time under 200ms.
- *Stack: **Python, Django, Laravel, PostgreSQL, REST API, Git***

Landslide Prediction Model

Jun 2024 – Jul 2024

Python, Pandas, Scikit-learn, Matplotlib

- Engineered a **supervised ML classification model** with 85% accuracy for landslide risk prediction using geological benchmark datasets.
- Established a **data preprocessing pipeline** with 4 stages: null handling, feature encoding, feature scaling, and train-test split evaluation.
- Generated 5 **risk visualization charts** to communicate environmental hazard findings to stakeholders.
- *Stack: **Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn***

Personal Portfolio Website

Jul 2024 – Aug 2024

HTML5, CSS3, JavaScript

- Deployed a **fully responsive** portfolio website achieving consistent layout across 3 device types: desktop, tablet, and mobile.
- Applied **SEO best practices** and **WCAG accessibility standards**, improving page discoverability and accessibility compliance.
- *Stack: **HTML5, CSS3, JavaScript***

Education

B.E. in Computer Science and Engineering

2022 – 2026

Kathir College of Engineering, Coimbatore, Tamil Nadu

CGPA: 7.9 / 10

Certifications

- **Frontend Development** – CSC
- **Software Engineering and Agile Development** – Infosys Springboard
- **GenAI and Data Analytics Simulation** – TATA Forage

Achievements and Volunteer Work

- **Coordinator** – Internal Hackathon, Kathir College of Engineering
- **Participant** – National Innovate Hackathon 4.0, EMATIX
- **Participant** – HackronyX National Level Hackathon, SVPCET Nagpur
- **2nd Place** – Logo Creation Competition, RVS College
- **2nd Place** – Power BI Technical Event, KPRIET
