SUMMARY

Entry-level Full Stack Developer with internship experience in building real-world web applications across frontend and backend. Skilled in modern frameworks, structured development practices, and collaborative teamwork. Eager to learn, solve problems, and contribute to scalable software solutions.

TECHNICAL SKILLS

Programming Languages: HTML5, CSS3, JavaScript, Python, PHP

Frameworks & Libraries: React.js, Bootstrap, Laravel, Django

Databases: MySQL, PostgreSQL, MongoDB

Web Development: Frontend Development, Web Application Development

Version Control: Git, GitHub

EXPERIENCE

Software Development Intern

Poorna Technology Consulting

Oct 2025 – Present
Coimbatore, Tamil Nadu

Developed a blog-based web application using Python, PHP, Laravel, Django, and REST APIs.

Improved reliability through automated testing using Selenium and Playwright.

Assisted with debugging, writing maintainable code, and backend enhancement.

Front-end Development Intern

Leader's Desk

Jul 2025 – Aug 2025
Coimbatore, Tamil Nadu

Built responsive UI components for a student platform using HTML, CSS, and JavaScript.

Improved layouts for cross-device compatibility and performance.

Delivered assigned modules on time following structured development practices.

Python Full Stack Intern

Emglitz Technologies

Jun 2025 – Jul 2025
Coimbatore, Tamil Nadu

Developed a landslide prediction ML model using Pandas and Scikit-learn.

Performed EDA, feature engineering, and evaluation to improve accuracy.

Worked with real datasets and implemented end-to-end ML processes.

Full Stack Development Intern

Altruistry Internship Program

Nov 2024 – Jan 2025
Remote

Developed frontend components for a full-stack project with responsive UI design.

Improved user experience using structured layouts and reusable components.

PROJECTS

Full Stack Blog Application

Internship Project

2025
Django, Laravel, PostgreSQL, REST APIs

Built a full-stack blog system with secure authentication and role-based access.

Designed optimized database models with statuses, soft delete, and audit fields.

Implemented scalable backend workflows for content management.

Personal Portfolio Website

Self Project

2024
HTML, CSS, JavaScript

Developed a modern responsive portfolio showcasing projects and achievements.
Ensured smooth performance and clean layout across all screen sizes.

Landslide Prediction Model

Internship Project

2025
Python, Pandas, Scikit-learn

Built a predictive ML model for landslide risk using environmental datasets.
Implemented preprocessing, normalization, and feature engineering.
Created visualization maps to identify high-risk zones.

Law Chatbot

Self Project

2024
Python

Developed a rule-based chatbot to answer Indian law-related queries.
Implemented a clean user interface for seamless interaction.

Python Voice Assistant

Mini Project

2024
Python, pyttsx3

Built a lightweight voice assistant with real-time text-to-speech output.
Designed modular architecture to support AI enhancements.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering

2022 – 2026

Kathir College of Engineering

CGPA: 7.9

Higher Secondary (HSC)

2019 – 2020

Infant Jesus Matriculation Higher Secondary School

Percentage: 83%

CERTIFICATIONS

Frontend Development – CSC

Software Engineering and Agile Development – Infosys

GenAI Powered Data Analytics Job Simulation – TATA Forage

ACHIEVEMENTS & VOLUNTEER WORK

Coordinator – Internal Hackathon, Kathir College of Engineering

National Level Innovate Hackathon 4.0 – EMATIX

HackronyX – National Level Hackathon, SVPCET Nagpur

2nd Place – Logo Creation Competition – RVS College

2nd Place – Power BI Technical Event – KPRIET
